- *Leading Subject Matter Experts and up-to-date regulatory and technical knowledge*

comes compliance services

Solutions

- *Quality Management and Validation software solutions*
- *On-line Audit Service Center at www.auditservicecenter.com*
- *Web-based Validation and Project Database*
- *Experts integrated into your project teams and compliance programs*

CCS Experts work with you to look at the organisation holistically in the light of best practices and your existing policies, procedures, processes, and applicable regulations. From that starting point, we will help you plan a risk-based route that lets you take consistent steps to achieving the results you need. Then we help you take those steps, using proven services and methods to gain the benefits of a consistent, value-added approach to compliance.

Results

- *Making compliance requirements understandable and systems ready-for-implementation*
- *Make the audit process faster, easier and with fewer findings*
- *Bullet-proof your IT Compliance projects*
- *Lower operational costs and improve business value*
- *Providing Inspection Readiness*

Are you determined to kick off a compliance program in order to gain a competitive edge? Our comprehensive package of sector-specific services will enable you to derive long-term benefits and bottom line economic results. Isn't it about time you get more than SOPs and Forms from your compliance program?

comes compliance services

comes compliance services

*comes (genitive: comitis) is the Latin word for comrade, companion, associate, partner.
The word comes derives from com- „with“ + ire „go“*
